Physical Private Network Interconnect (PNI)		\$100	\$150	
Additional Rack Unit (RU)		\$100	\$250	
Additional Peering IP Address		\$100	\$20	

Important Notes

- ❖ 10 Mbps ports are free for the first 6 months of service (excluding NRC) starting from the date of activation.
- ❖ Each participant that purchases one or more ports will be provided a single IP address, 2 RU of rackspace, and power free of charge.
- ❖ At least one port is required to purchase any non-port services. Active ports ordered via previous forms can satisfy this criteria.
- ❖ NRC is waived for any services that were activated prior to the implementation of service fees in January 2018.
- ❖ The UIXP does not have the ability to offer an SLA at this time, but will endeavour to do so in the future.
